Warner ***Monarch***

Warner School operates on a 6-6 basis. The main building houses grades 1 through 6, and the high school study hall which was added in 1966. Our enrollment this year was over 300, which included our kindergarten students, who attended classes for six weeks this spring. Many changes have taken place in our school throughout the year, and with them our facilities and environment have improved. We hope that improvements will continue, as does our education.

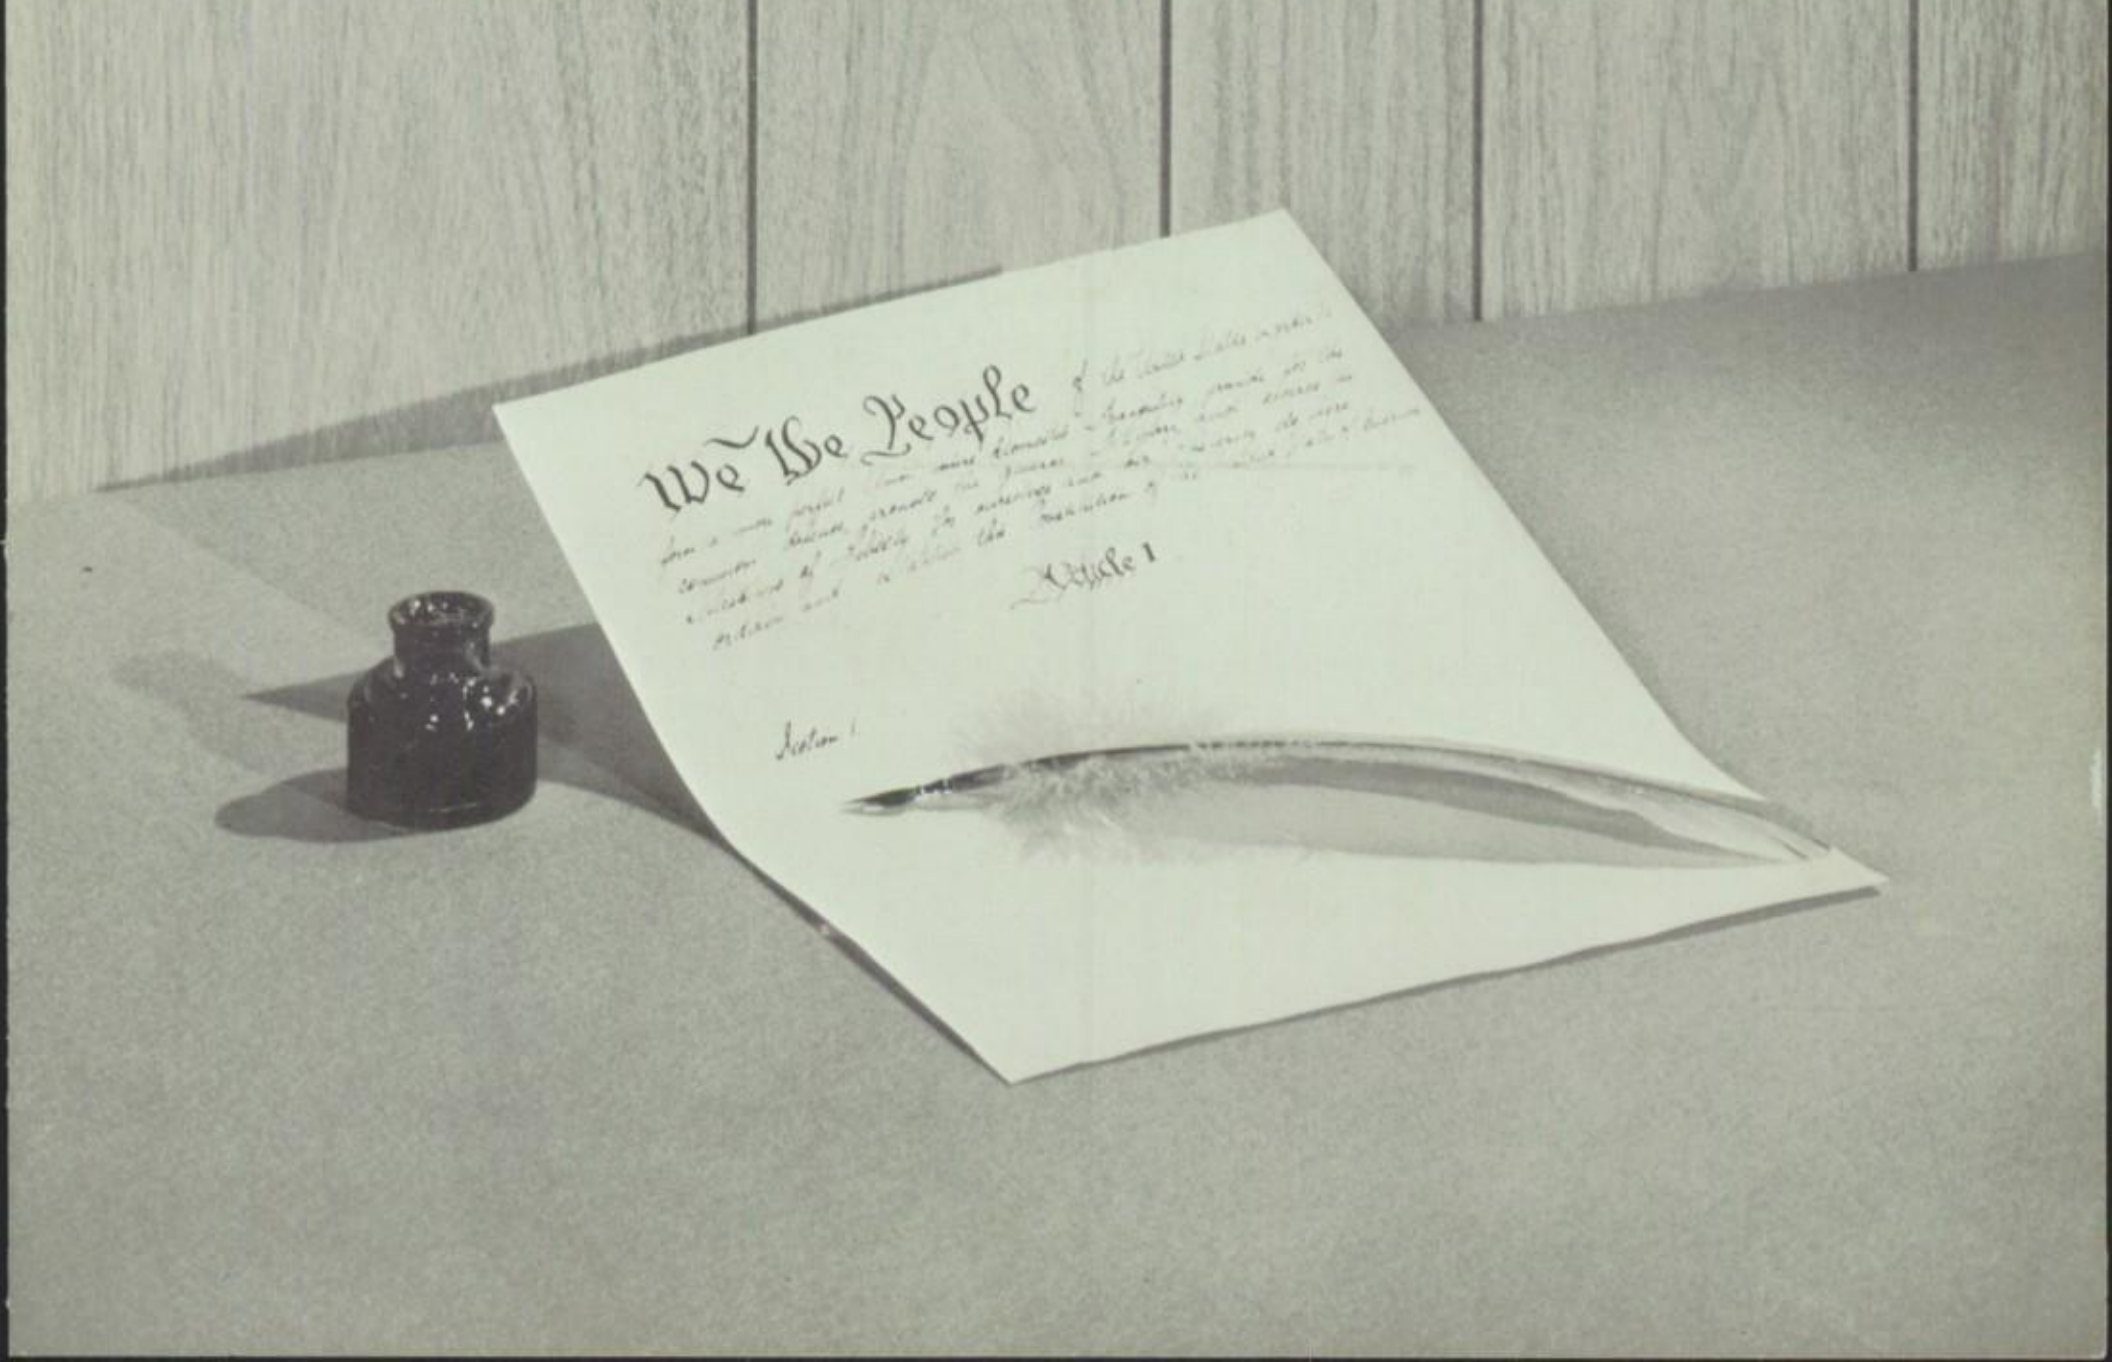
DEDICATION



It gives us a great deal of pleasure to dedicate our 1967 Warner Monarch to our English teacher, Lucile Schoppe. She was our junior class advisor last year, and in that capacity she directed our class play, and spent many long hours with us in preparation for our Junior-Senior Banquet and Prom.

Mrs. Schoppe is Warner's school librarian, in addition to teaching four English classes. She is never too busy, however, to lend anyone a helping hand, and she is interested enough in her students to follow their achievements after graduation.

Although we don't often show it, Mrs. Schoppe, please accept this dedication as just a small token of appreciation, for your conducement to our education at Warner High School.
